To whom it may concern:

Bell Insurance Services Limited has recently had the pleasure of dealing with The Boss Supply Group Limited who exclusively carry the Knoll Furniture line, in the outfitting of our new office in Port of Spain.

We chose to go with the Knoll brand among several other furniture brands as the line is, in our opinion, the most ergonomically designed, contemporary, and high quality brand in our market.

During the process from selecting the furniture pieces to delivering and installing the furniture, we were given excellent support and sales service; constantly consulting with me and ensuring the pieces selected were the best fit for the look we wanted and for the space of the office. I believe they are one of the few companies that truly deliver a team environment in this regard.

The installation of the furniture was done in a systematic and responsive time frame and any following up or alterations was expediently carried out.

I can confidently recommend The Boss Supply Group Limited as a solid and reliable supplier, and experts and leaders in their field.

Yours faithfully,

Matthew Moses
Managing Director
Bell Insurance Services Limited
