

To Whom It May Concern,

This letter serves as a testimonial and endorsement of the service received from BOSS Ltd as well as that of the MSE range of remanufactured toners.

Mr. Mario Singh, our Account Manager of BOSS Corporate sales informed me of an opportunity to reduce our operating expenses, regarding toner and ink cartridges, without sacrificing our print quality. A trial of the toners we used was conducted to confirm compatibility, quality and to reassure our end users who were not aware of any discernable differences. After a successful trial our cost comparisons allowed us great savings without sacrificing the quality of our work. We have not experienced any negative issues during the use of the product and are more than pleased with their performance.

I highly endorse the use of the MSE range of remanufactured toners as supplied by BOSS.

Regards,

Portia Cordice
